Welcome to the College of Arts & Sciences at Oklahoma State University. From cutting-edge research in the sciences to original displays of creativity in the arts, this college is the core of the university's vibrant academic and cultural community. Our outstanding faculty, staff and fellow students work together to provide an exceptional learning experience for our majors and graduate students. Arts & Sciences degrees focus on developing our students' capabilities in inquiry based learning, critical thinking, problem solving, and written communication. Each degree and associated co-curricular programs prepare our students for the dynamic careers they will soon enter.

The College of Arts and Sciences not only offers a wide variety of programs in teaching, research and outreach, but also supports and reinforces all the other programs of the University. Apart from strong programs in the natural and social sciences and in the liberal and fine arts, the College provides a number of more specialized and interdisciplinary strengths and a variety of professional and pre-professional training.

Scholarships
A number of undergraduate scholarships are available through the College and through the departments and schools within the College. Visit cas.okstate.edu/scholarships for more information. Arts and Sciences students are also encouraged to apply for the variety of scholarships available through the University's Office of Scholarships and Financial Aid.

Student Success Center
The Arts and Sciences Student Success Center includes resources and support services for students.

Student Academic Services
The academic advising process in Arts and Sciences is coordinated by Student Academic Services. The advising staff in Student Academic Services advises freshmen and undecided students. Departmental advisers provide advising for students who have declared their majors. The general education program in the College of Arts and Sciences allows undecided freshmen to make progress toward most degrees for up to three semesters, while exploring possible fields of study with an academic adviser. The responsibility for satisfying all requirements for a degree and for ensuring that a degree plan has been submitted rests with the student. Advisers assist students in curriculum planning, and students are encouraged to consult fully with their advisers.

The Student Academic Services staff represents the College in the University's recruiting activities and represents the dean in such matters as petitions for excessive hours, change of major or college, and student withdrawals. Services also include graduation certification, information about college programs and requirements, and referral of A&S students to campus support services.

More information and resources are available at cas.okstate.edu.

Career Services
The primary goal of A&S Career Services is to promote academic excellence to enhance career planning and lifelong success. Services offered include career counseling, job and internship search strategies, and assistance with preparation of resumes and cover letters. Presentations on a wide-range of career-related topics are offered to classes and clubs. More information and resources are available at career.cas.okstate.edu.

Outreach
The mission of A&S Outreach is to extend intellectual resources, disseminate knowledge to learners at any time and any place, and provide lifelong learning opportunities. This is accomplished through offering high school and collegiate distance learning courses, international credit courses, and field trip courses. Outreach also coordinates academic conferences, industry workshops and seminars, and cultural outreach opportunities. More information and resources are available at outreach.cas.okstate.edu.

Academic Programs
Undergraduate Programs
Requirements for all degree programs and options are detailed in Undergraduate Degree Requirements Sheets available online at registrar.okstate.edu/Degree-Requirements.

Graduate Programs
Requirements for master's and doctoral degrees are detailed on the Graduate College website at gradcollege.okstate.edu/degree.

Special Academic Programs
The Honors College
The College of Arts and Sciences has offered honors courses since the 1960s and has the greatest number of students and faculty participating in The Honors College at Oklahoma State University. The Honors College provides outstanding students with the opportunity to study, conduct research and interact with faculty and other honors students in a variety of settings designed to assist talented students who seek to make the most of their educational opportunities. Honors sections of many general education courses allow participating students the benefits of small classes taught by experienced members of the faculty, thus combining the extensive resources of a major comprehensive university...
with personal faculty attention to each student. Special honors seminars
provide coverage of topical issues each semester in formats that
encourage the exchange of ideas through discussion and writing. Honors
seniors complete the requirements of The Honors College by undertaking
a senior honors thesis (or similar creative activity), and honors seniors
also may earn honors credit by enrollment in graduate seminars.

For eligibility requirements, visit The Honors College website at
honors.okstate.edu (http://honors.okstate.edu).

OSU Teach and Secondary Teacher Certification (grades 6-12)

Students earning a degree in Biological Science, Chemistry, Geology,
Mathematics or Physics may participate in the OSU Teach program by
selecting a degree option in secondary teacher certification. OSU Teach
offers four-year degree, which lead to a B.S. in the selected discipline and
teacher certification at the secondary level. OSU Teach is a collaboration
between the College of Education and the College of Arts and Sciences.
OSU Teach students begin supervised teaching in K-12 classrooms during
their first semester in the program and continue these field experiences
throughout their coursework, which culminates with apprentice teaching.

Students earning degrees in other majors in the College of Arts and
Sciences can also satisfy the requirements for secondary teacher
certification by completing certain courses and other requirements.
Interested students should see their Arts and Sciences adviser and the
OSU Professional Education Unit in the College of Education in room 325
Willard as soon as possible for more information. Students who plan to
complete the requirements for certification should apply for admission to
professional education immediately in order to incorporate certification
requirements into their plan of study. OSU Professional Education
recommends a candidate for certification to the State Department
of Education when the candidate has successfully completed all
requirements. See the Professional Education section of the catalog for
more information.

Pre-professional Programs in the Health Professions

Pre-medicine, Pre-dentistry, Pre-optometry, Pre-pharmacy, Pre-chiropractic
and Pre-veterinary Medicine.

The pre-professional curricula for physicians, dentists, podiatrists,
optometrists, pharmacists, chiropractors and veterinarians have the
same basic core because they must prepare students for professional
schools whose admission requirements are almost identical. These
include a strong foundation in math, chemistry, physics and biology, the
disciplines on which major advances in the health field depend. Included
also are courses to develop written and spoken communication skills,
which are highly important for a good relationship with patients, the
public and other professionals.

Beyond this required core, pre-professional students may choose courses
and a major as freely as any other students in the College of Arts and
Sciences. Medical schools encourage study in the social sciences and
humanities that contributes to the understanding of human beings in
their entirety—their history and environment, their attitudes and values,
their emotions, motivations, interpersonal relationships and cultural
heritage. All of these may affect sickness and health.

The specific admission requirements of medical, dental, and
veterinary schools are available at prehealth.okstate.edu (http://
prehealth.okstate.edu) and in the Pre-health Advising office. The OSU pre-
medical and pre-veterinary course requirements are listed in the "Center
for Veterinary Health Sciences" and the "Center for Health Sciences"

sections of the Catalog. Students whose goal is admission to medical,
dental, podiatry, optometry, pharmacy or veterinary programs should
consult with their academic adviser.

Allied Health Professions

The allied health professions for which one can prepare at Oklahoma
State University include dental hygiene, nursing, occupational therapy,
physical therapy, physician's associate and medical imaging and
radiation sciences. The College of Arts and Sciences offers the
general education and basic science courses that a student must
complete before he or she can be accepted into a professional program.
Competitive students may be accepted into these programs after
completing 60-90 hours of course work, depending on the health
profession. Students whose goal is admission to a professional program
in the allied health professions should visit prehealth.okstate.edu
(https://prehealth.okstate.edu) for information regarding the specific
requirements of particular programs and schools and consult with their
academic adviser.

Pre-Law Preparation

Law schools have no single preference for a specific undergraduate
major. Admission to law school is primarily based on a strong record
achieved in a rigorous undergraduate program and a competitive
score on the Law School Admission Test (LSAT). Other admission
considerations include course of study and difficulty of curriculum;
letters of recommendation; work and leadership experiences; and
applicant's background and motivation as revealed in an application
essay.

Law school admissions officers most frequently recommend students
include in their undergraduate programs courses which develop strong
reading, writing and critical thinking skills as these verbal and analytical
abilities are particularly critical for success in law school.

Students whose goals is admission to law school should visit
prelaw.okstate.edu (http://caststudents.okstate.edu/index.php?
option=com_content&view=article&id=114) and consult with their
academic adviser.

Student Organizations and Honor Societies

The Arts & Sciences Student Council serves as the voice of the
undergraduate students in the College of Arts & Sciences. As the liaison
between the students and the faculty, the Council's primary goal is to
foster an atmosphere of learning that places students first. Through
student programming, interaction with administration and faculty, and
the promotion of the College's student organizations, the Council strives
to enrich the experience of Arts & Sciences students. The Council also
stresses service to the University and to the surrounding community. A
complete listing of Student Organizations is available through the OSU
Office of Leadership and Campus Life at https://campuslink.okstate.edu/.
