The college was founded in 1972 in response to a physician shortage in the small towns and rural areas of Oklahoma. The college opened its doors in 1974 and graduated its first class in 1977. In 1988, the college was merged with Oklahoma State University and confirmed its mission to prepare students to be primary care physicians with emphasis in rural medicine. In 2001, the Oklahoma legislature added another designation by creating the OSU Center for Health Sciences—the umbrella organization for the College of Osteopathic Medicine; and graduate programs in biomedical and forensic sciences, health care administration and athletic training.

The OSU Center for Health Sciences is located on 16 acres along the west bank of the Arkansas River with an impressive view of downtown Tulsa. Modern buildings house conference facilities, a hospital simulation center, expanded classroom space, a medical bookstore and a forensic sciences and biomedical research facility. The OSU Medical Center, located a half-mile north of campus, is the primary teaching hospital for the college. The medical center serves Tulsa and the surrounding communities, and serves as both a teaching clinic for medical students, interns and residents, and a health care resource for residents of Tulsa and the surrounding area. The medical center is a state entity operated by the Oklahoma State University Medical Authority, with management by Saint Francis Health System. The hospital provides comprehensive and specialized health care and is staffed by licensed physicians and other health care professionals who supervise students in the care of patients. The OSU combined clinic system covers a wide variety of specialties. The clinics provide essential health care to the community.

Promoting a patient-centered approach to health care, osteopathic physicians are concerned with the entire patient and traditionally have excelled in general and family health care. The doctor of osteopathic medicine is a fully-trained and licensed physician who selectively utilizes all accepted scientific modalities to maintain and restore health. Osteopathic physicians and surgeons are licensed in every state to practice all phases of medicine, and offer their patients the added dimension of health care through osteopathic manipulation, a hands-on technique that uses palpation and manipulative procedures of the musculoskeletal system to diagnose and treat illness.

**Minimum Admission Requirements**

Prior to matriculation, the applicant must have an overall grade-point average of at least 3.00 (on a 4.00 scale), a pre-professional science GPA of at least 2.75, and a minimum score of 492 on the Medical College Admissions Test (MCAT). All applicants must take the MCAT within three years prior to matriculation. The last MCAT test date accepted for each application cycle is January the year of matriculation. Under special circumstances, the College may use discretion to admit students who do not meet these minimum requirements.

At the time of entry, the applicant must have completed:

- Completion of at least three years (90 semester hours) and not less than 75 percent of the courses required for a baccalaureate degree at a regionally accredited college or university.
- Satisfactory completion of the following courses with no grade below “C” (2.0 on a 4.0 scale):
  - English, 2 semesters
  - Biology, 2 semesters (including laboratory)
  - Physics, 2 semesters
  - General Chemistry, 2 semesters
  - Organic Chemistry, 2 semesters

The majority of the applicants are interested in careers in primary care, pediatrics, family medicine, emergency medicine, psychiatry, obstetrics/gynecology, radiology, surgery, dermatology and rehabilitation medicine. To fulfill these educational needs, the College of Osteopathic Medicine has affiliated institutions that include:

- **OSU Medical Center**
- **Tulsa Saint Francis Regional Medical Center**
- **McClain Regional Medical Center**
- **Tulsa Community Clinic**
- **Tulsa Sol C. Hambleton Institute for Rural Health**
- **Oklahoma State University Western Medical Center**
- **Oklahoma State University School of Veterinary Medicine**
- **Oklahoma State University Health Science Center—Oklahoma City**, and
- **Oklahoma State University Health Science Center—Tulsa**.

The OSU combined clinic system covers a wide variety of specialties. The clinics provide essential health care to the community.
• At least one upper division (3000-4000) level science course, including but not limited to:
  • Human Anatomy or Comparative Anatomy
  • Biochemistry
  • Microbiology
  • Molecular Biology
  • Histology
  • Cellular Biology
  • Embryology
  • Physiology

The annual AACOMAS application deadline is February 28. The deadline for supplemental application materials is March 30.

An on-campus interview with the Applicant Interview Committee is by invitation only. Interviews are conducted by clinical and basic science faculty members, as well as alumni. Applicants must participate in the interview to qualify for further consideration. Interview results and other data submitted will be considered when determining which applicants have demonstrated appropriate levels of scholarship, aptitude and motivation for admission to the program. Class size is limited to 165 students (in 2019).

Selection Factors
The College considers applications for admission from all qualified candidates. The Oklahoma State University Center for Health Sciences provides equal employment and/or educational opportunity on the basis of merit and without discrimination because of age, race, ethnicity, color, religion, sex, sexual orientation, genetic information, gender, gender identity or expression, national origin, disability, protected veteran status, or other protected status in any of its policies, practices, or procedures. Preference is given to Oklahoma residents. Applicants must be U.S. citizens or permanent residents of the U.S. Non-U.S. citizens must have a permanent resident visa (“green card”) at the time of application in order to be considered for admission.

College Curriculum
The curriculum at the OSU College of Osteopathic Medicine places significant focus on primary care. The four-year program emphasizes the integration of biomedical sciences with clinical systems. The curriculum includes early hands-on clinical experiences with patients, patient models, and simulations. Instructional methods are student-centered and include traditional lecture, and small group and team-based learning. Problem-solving and information retrieval skills are emphasized to produce and develop skills that support lifelong learning.

The culture of the OSU College of Osteopathic Medicine encourages students to establish an academic relationship with faculty members and community-based physicians. The curriculum emphasizes integration of biomedical with clinical and behavioral sciences to permit the full community-based physicians. The curriculum emphasizes integration of biomedical sciences with clinical systems. The curriculum includes early hands-on clinical experiences with patients, patient models, and simulations. Instructional methods are student-centered and include traditional lecture, and small group and team-based learning. Problem-solving and information retrieval skills are emphasized to produce and develop skills that support lifelong learning.

The curriculum emphasizes integration of biomedical sciences with clinical systems. The curriculum includes early hands-on clinical experiences with patients, patient models, and simulations. Instructional methods are student-centered and include traditional lecture, and small group and team-based learning. Problem-solving and information retrieval skills are emphasized to produce and develop skills that support lifelong learning.

Incorporated within the OSU-COM curriculum is a Rural Medical Track (RMT) that stresses the unique nature and characteristics of a rural practice, provides a pathway for student matriculation into a rural primary care residency, and supports residency graduates in the establishment of a practice in a rural or underserved Oklahoma location.

The first semester focuses on the foundations of biomedical and clinical sciences along with an introduction to patient care. Starting in the second semester and continuing through the end of the second year, students are introduced to a total of 11 clinical systems that systematically prepare students for addressing conditions typically seen in the primary care environment. The third and fourth years are comprised of clinical rotations, which are community-based, consisting of clerkship experiences in hospitals and clinics where students observe patient care and participate in the evaluation and treatment of patients under physician faculty supervision.

In the Clerkship Program, students are required to complete 22, four-week rotations in the core areas of family medicine, osteopathic manipulative medicine, pediatrics, internal medicine, surgery, obstetrics-gynecology, psychiatry and emergency medicine. In addition to the core rotations, students are also required to complete three rotations at affiliated teaching sites in rural communities, two of which are focused on gaining experience in a rural hospital setting. Students must also complete two primary care electives, seven general electives and one required vacation. Many rotations are completed at the OSU Medical Center in Tulsa, one of the largest osteopathic hospitals in the United States.

Furthermore, students enrolled in the Rural Medical Track Program take our mission to serve rural Oklahoma to new heights. The Rural Medical Track Program is designed to allow students to complete, whenever possible, the core rotations in rural communities. In addition to the core rotations, the Rural Medical Track students must also complete at least two sub-internships with rural residency programs, as well as two specialty electives.

Students graduate from the four-year program with the Doctor of Osteopathic Medicine (DO) degree. Although more than half of graduates enter primary care, graduates are prepared to enter residencies in all medical specialty fields. This training period lasts a minimum of three years with several specialties requiring up to five years of postgraduate education. To see a full list of residency programs our recent graduates have entered and residency acceptance data, along with OSU-COM’s pass rate on the COMLEX-USA, please visit: https://health.okstate.edu/com/admissions/graduates.html.

Accreditation
The college is accredited by the Commission on Osteopathic College Accreditation (COCA) of the American Osteopathic Association, the recognized accrediting agency for institutions that educate osteopathic physicians. The Oklahoma State Regents for Higher Education are empowered by the Oklahoma Constitution to prescribe standards for higher education applicable to each institution in the Oklahoma State System of Higher Education.

Financial Aid
Financing a medical education should be seriously considered. The primary responsibility for meeting your educational costs rests with the student and his or her family; however, the Office of Student Financial Aid makes every attempt to assist him or her financially.

The Office of Student Financial Aid supports the mission of the University by enabling students and families to reduce or eliminate financial barriers that might prohibit their participation in the programs offered by OSU Center for Health Sciences. The office administers need-based financial aid programs funded by federal, state, University and private sources in the form of Federal Stafford loan (Unsubsidized), Graduate PLUS loan, employment, as well as need- and merit-based scholarships. The
office also administers the Federal non-need based loan programs (Unsubsidized) and provides information and support to students interested in the alternative loan options available to them.

Tuition and fees at the College of Osteopathic Medicine (for the 2017-2018 school year) totals $25,796.60 per year for Oklahoma residents and $53,298.56 per year for out-of-state residents. Fees vary by year for medical students and average $2,967.

Most financial aid is renewable on an annual basis, provided there is adequate funding and the student remains eligible (enrolled in a matriculated program, in good academic standing and with continued need for need-based aid). To qualify, each student should file the Free Application for Federal Student Aid (FAFSA) by Feb. 15. Students are encouraged to continue to file after this date; however, consideration for funds will be given on a first-come basis.

The FAFSA and other required applications may be obtained by contacting:

Office of Financial Aid - OSU College of Osteopathic Medicine
1111 West 17th Street
Tulsa, OK 74107-1898;

Students may apply online at www.fafsa.ed.gov/ (http://www.fafsa.gov) (School code is G11282).

Graduate Education

The Center for Health Sciences offers graduate degree programs in Biomedical Sciences, Forensic Sciences, Health Care Administration and Athletic Training.

The Biomedical Sciences Graduate Program offers PhD, MS, DO/MS and DO/PhD degree programs. These programs provide students with a foundation in biomedical sciences that is broadly applicable to many disciplines, including anatomy, biochemistry, cell biology, microbiology, pathology, pharmacology and physiology.

The Master of Science in Biomedical Sciences offers a thesis and non-thesis option, with both programs designed to be completed in two years with a minimum of 32 credit hours. The PhD program is designed to be completed in four years with a minimum of 90 credit hours. The DO/PhD program is designed to be completed in a minimum of seven years. The first two years are the basic science years of the program. The middle three years are graduate study, research and dissertation of the PhD program. The final two years are the clinical sciences years of the DO program. The DO/MS program is designed to be completed in a minimum of five years. The first year is primarily the graduate portion of the program. The last four years consist of the medical portion of the program and the last four years consist of the medical portion of the degree.

The DO/MBA is an accelerated program that allows DO students to gain their MBA through the Spears School of Business in a single year. Six hours of elective credit can be shared from the DO coursework or business electives of the student’s choice. The DO/MPH is an accelerated program that allows DO students to gain their M.P.H. in one calendar year, by allowing DO coursework to serve as elective coursework for the MPH degree. This 42-hour program captures 27 hours of the MPH’s core coursework in the fall and spring semesters with six elective hours taken in the summer.

The Master of Athletic Training Program is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Once accepted into the program, students are assigned to a Board of Certification (BOC) Certified Athletic Trainer (AT) where they are responsible to provide for the overall health care of patients over the course of their respective seasons or occupation. Clinical instruction of students is achieved through direct supervision by health care providers. The curriculum is based in the human sciences with anatomy, physiology, biomechanics, pathology, pharmacology, nutrition and psychology providing the theoretical foundation of student inquiry. Students learn how to apply these theoretical concepts while in the clinical setting learning under licensed physicians, athletic trainers, physical therapists and other allied health care professionals. This balance of theory and practical application prepares students to sit for the Board of Certification examination where upon successful completion, may earn the credentials ATC. Additional information about these programs can be found at: http://www.health.okstate.edu/com/catalog.php.

Honor and Service Organizations

The College emphasizes community service, and many students volunteer their time in giving school and athletic physicals, visiting nursing homes, working with school children and working at College-sponsored health fairs or the annual Osteopathic Scrub Run. Listed below are official student organizations.

American College of Osteopathic Emergency Physicians (ACOEP)
American College of Osteopathic Family Physicians (ACOFP)
American College of Osteopathic Pediatricians (ACOP)
American Medical Student Association (AMSA)
American Medical Women’s Association (AMWA)
American Osteopathic College of Physical Medicine and Rehabilitation
Anesthesiology Student Interest Group (ASIG)
Association of Military Osteopathic Physicians and Surgeons (AMOPS)
Association of Native American Medical Students (ANAMS)
Atlas Fraternity—social
Biomedical Science Graduate Student Association (BGSASA)
Business & Leadership in Medical Practice (BLiMP)
Christian Medical Association (CMA)
Club S.P.I.N.E.—fundraising for Eugene Field Elementary
Forensic Science Organization (FSO)
Gay & Lesbian Advocacy in Medicine (GLAM)
Health Innovation, Technology, and Entrepreneurship Club (HITEC)
International Federation of Medical Students’ Associations (IFMSA)
Oklahoma Osteopathic Obstetrics and Gynecology Student Association
Pathology & Laboratory Medicine (PLM)
Pros For Africa (PFA)
Sigma Sigma Phi (SSP)—honor society
Society for Career Opportunities and Professional Exploration (SCOPE)
Student American Academy of Osteopathy (SAAO)
Student American Osteopathic Academy of Orthopedics (SAAO)
Student Association Auxiliary (SAA)
Student Government Association (SGA)
Student Interest Group in Neurology (SIGN)
Student National Medical Association (SNMA)
Student Osteopathic Association for Sports Medicine (SOASM)
Student Osteopathic Association of Radiology (SOAR)
Student Osteopathic Association of Research
Student Osteopathic Internal Medicine Association (SOIMA)
Student Osteopathic Medical Association (SOMA)
Student Osteopathic Physical Medicine and Rehabilitation Association
Student Osteopathic Psychiatry Association (SOPA)
Student Osteopathic Research Association (SORA)
Student Osteopathic Rural Medicine Club (STORM)
Student Osteopathic Surgical Association (SOSA)
Student Political Action Committee
Wilderness Medical Society (WMS)

Faculty

Center for Health Sciences

President of the Center for Health Sciences and Dean of the College of Osteopathic Medicine: Kayse M. Shrum, DO
Interim Provost of the Center for Health Sciences and Senior Associate Dean of Operations: Jeffrey S. Stroup, PharmD
Interim Senior Associate Dean of Academic Affairs: Dennis Blankenship, DO

Biomedical Sciences and Graduate Studies
Bruce Benjamin, PhD—Vice Provost for Graduate Studies, Associate Dean for Biomedical Sciences

Anatomy and Cell Biology
Nedra Wilson, PhD—Associate Professor and Interim Chair
Professors: William D. Meek, PhD; Kenneth Miller, PhD; Kent S. Smith, PhD
Associate Professors: Anne Weil, PhD
Assistant Professors: Holly Ballard, PhD; Paul Gignac, PhD; Haley O’Brien, PhD; Dolores Vasquez Sanroman, PhD

Athletic Training
Jennifer L. Volberding, PhD—Associate Professor and Interim Chair
Associate Professors: Matthew S. O’Brien, PhD; Aric Warren, EdD

Biochemistry and Microbiology
Charles G. Sanny, PhD—Professor and Chair
Professors: Martin W. Banschbach, PhD; Franklin R. Champlin, PhD
Associate Professors: Earl L. Blewett, PhD; Rashmi Kaul, PhD; Gerwald Köehler, PhD

Emergency Medicine
Aaron Lane, DO—Interim Chair
James Herrington, DO—Clinical Assistant Professor and Vice Chair
Clinical Associate Professors: Mark E. Blubaugh, DO; Jennifer Eischen-Galbraith, DO; Gavin Gardner, DO; David Gearhart, DO; Michael R. Schiesel, DO
Clinical Assistant Professors: Bobby Abernathy, DO; Tyson Bryant, DO; Michael Cannon, DO; Linden Cowley, DO; Anastasia Fisher, DO; Charles Harris III, DO; Megan Johanning, DO; Mary K. Moore, DO; Kelly A. Murray, PharmD; Jonathan D. Robins, DO; Zackary Spradlin, DO; Matthew E. Stiger, DO

Family Medicine
Lora D. Cotton, DO—Professor and Director and Interim Chair
Jennifer Alexopulos, DO—Professor, Medical Education Director, Medical Director
William J. Pettit, DO—Professor, Provost, Senior Associate Dean and Associate Dean for Rural Health
Clinical Professor: LeRoy Young, DO
Associate Professors: Sarah Hall, DO; Regina Lewis, DO
Clinical Assistant Professors: Steffen Carey, DO; Amanda Carey, DO; Crystal M. David, DO; Amanda Gordon Green, DO; Chelsey D. Griffin, DO; Taba B. Hasenpflug, DO; Erin Kratz DO; Lana Myers, DO

Forensic Sciences
Robert W. Allen, PhD—Professor, Graduate Program Director and Chair
Professor and Director: Jarrad R. Wagner, PhD
Associate Professor: Ronald R. Thrasher, PhD
Assistant Professor and Director: John J. Frucci

Health Care Administration
James Hess, EdD—Professor, Chair and Director
Clinical Professors: Anil K. Kaul; Zack Barughese
Assistant Professor: Barbara B. Miller

Internal Medicine
Damon L. Baker, DO—Professor, Chair and Chief Medical Officer for OSUMC
Johnny R. Stephens, PharmD—Professor, Senior Vice President and Chief Operating Officer
Gary L. Slick, DO—Professor and Medical Director of OMECO
Associate Professor: Katherine Cook, DO; Mousumi Som, DO
Clinical Associate Professors: Jay Johnson, DO; Matt Wilkett, DO
Clinical Assistant Professors: John Carabella, DO; Justin Chronister; Stacy Chronister, DO; Christina Connel, PharmD; Sharilyn Cook, DO; Steve Kim, DO; Leonard Lacefield, DO; Madhuri Lad, DO; Kaleb Veit, DO; Daniel Wildes, Jr., DO; William Woods, DO; Shane S. Yamane, DO
Medical Education
Susan Steele, DO—Clinical Associate Professor and Chair
Professor: Nancy Van Winkle, PhD
Clinical Professor: Laurie Clark, DO
Clinical Associate Professor: Carrie Gilstrap; Randall S. Reust
Clinical Assistant Professors: Angela Farrar

Obstetrics and Gynecology
Lance Frye, MD—Clinical Professor and Chair
Clinical Professor: William Po, MD
Clinical Assistant Professors: Corey Babb, DO; Erin E. Brown, DO; Carlos M. Guevara, DO

Osteopathic Manipulative Medicine
Robin Dyer, DO—Professor and Chair, Associate Dean for Academic Affairs
Clinical Associate Professors: Miriam Mills, MD; Mark Thai, DO
Clinical Assistant Professors: Stephen Barnes, DO; Leslie Ching, DO; Jennifer Wilson, DO

Pathology
Anthony Alfrey, MD—Assistant Professor and Chair
Professor: Joseph Price, PhD
Clinical Assistant Professor: Eric Harp, DO

Pediatrics
Amanda Foster, DO—Clinical Professor and Interim Chair
Kayse M. Shrum, DO—President and Dean, Professor
Professor and Interim Associate Dean: Rhonda L. Casey, DO
Professor: Shawna Seagroves-Duncan, DO
Clinical Professor: Colony S. Fugate, DO
Clinical Associate Professors: Travis Campbell, DO; Jeremy Jones, DO; Whitney L. Latham, DO; Heather Rector, DO
Clinical Assistant Professors: Laura Bode, DO; Bing Phung, DO

Pharmacology and Physiology
Bruce Benjamin, PhD—Vice Provost, Associate Dean for Biomedical Sciences, Associate Professor
Kathleen S. Curtis, PhD—Interim Dean
Professors: Craig Stevens, PhD; David R. Wallace, PhD
Associate Professors: J. Thomas Curtis, PhD; Warren E. Finn, PhD; Alexander Rouch

Physician Assistant Program
Amy Harrison—Clinical Assistant Professor and Program Director

Psychiatry and Behavioral Sciences
Jason W. Beaman, DO—Clinical Assistant Professor and Chair
Professor and CIRCA Director: Jennifer Hays Grudo
Clinical Associate Professor and Director: Stephen J. Brasseux, MD
Clinical Associate Professor: Tessa L. Chesher, DO, Aaron Pierce, DO
Clinical Assistant Professors: Sara M. Coffey, DO; Gary Denny, Kelly J. Dunn, MD; Alicia Ford, PhD; Samuel Martin, MD; Anna Mazur, PhD; Sara Rich, PhD; David B. Ross, MD; Matt Vassar, PhD; Kimberlee Wilson, DO

Clinical Assistant Professor: Jeremy Fullingim, DO

Rural Health
Mark Woodring, DrPH—Adjunct Clinical Assistant Professor and Assistant Dean of Rural Health
Gary L. Slick, DO—Professor and Medical Director of OMECO
Denna Wheeler, PhD—Clinical Associate Professor, Interim Assistant to the Dean for Operation and Interim Section Chief
Clinical Assistant Professors: Duane Koehler, DO, Assistant to the Dean; Andrea McEachern; C. Michael Ogle, DO; Amy Harrison, Director, PA Program
Assistant Professor: Randolph D. Hubach

Surgery
Michael Thomas, MD—Clinical Assistant Professor and Chair
Brian C. Diener, DO—Professor and Vice Chair
Professor: Douglas C. Foster, DO
Clinical Assistant Professors: Adam Bradley, DO; Hal H. Robbins, DO; Nathan Roberts, DO

Radiology
Dean Fullingim, DO—Clinical Professor and Chair
