

ENERGY ENGINEERING (ENE), MINOR

Requirements for Students Matriculating in or before Academic Year 2026-2027. Learn more about University Academic Regulation 3.1 (<https://catalog.okstate.edu/university-academic-regulations/#matriculation>).

Minimum Overall Grade Point Average: 2.50

Total Hours: 15

Code	Title	Hours
EEM 4103	Energy Conversion and Power Generation ¹	3
PETE 4303	Petroleum Rocks and Fluids	3
EEM 4123	Subsurface Energy Extraction Engineering ¹	3
EEM 4203	Geothermal Energy Engineering	3
EEM 4213	Energy Engineering Economics and Investments ¹	3
Total Hours		15

¹ EEM 4103 Energy Conversion and Power Generation and EEM 4123 Subsurface Energy Extraction are prerequisites for EEM 4213 Energy Engineering Economics and Investments.

Additional OSU Requirements

Undergraduate Minors

- An undergraduate minor must include between fifteen and thirty hours, inclusive of undergraduate coursework.
- A minimum of six credit hours for the minor must be earned in residence at OSU.
- The courses required for a minor may be included in the course requirements for any undergraduate degree or they may be in addition to degree requirements, depending on the overlap between the minor and degree requirements. However, an undergraduate minor must be earned in an academic field other than the student's declared degree option. The minor may not duplicate the degree major or option (for example, a student who earns a BA in Art with an Art History option may earn a minor in Studio Art but not Art History).
- A student generally follows the minor requirements associated with his or her matriculation year or newer requirements that have been established since matriculation. The time limit for following requirements from a given academic year is six years.

For additional information on requirements on minors, click here (<https://adminfinance.okstate.edu/site-files/documents/policies/requirements-for-undergraduate-and-graduate-minors.pdf>).
